

Tidal and Riverine Flooding

Determining general applicability for communities that have only both tidal flooding and riverine flooding (Nontidal Waters of the State), with and without floodways, and with and without BFEs. Also see Chart B (Riverine Only) and Chart C (V Zone & CAZ).

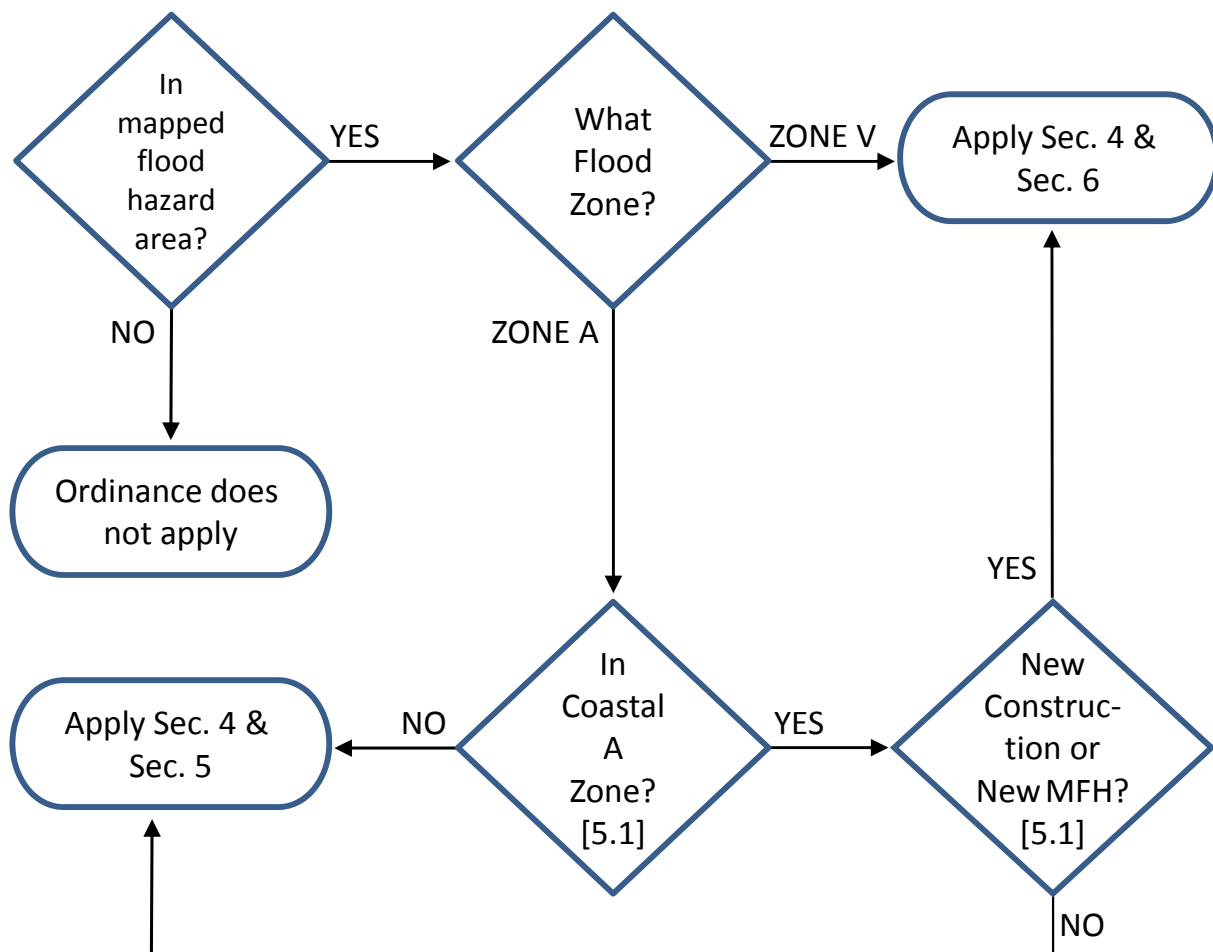

Riverine Flooding Only

Determining applicability for communities that have only riverine flooding (Nontidal Waters of the State), with and without floodways, and with and without BFEs.

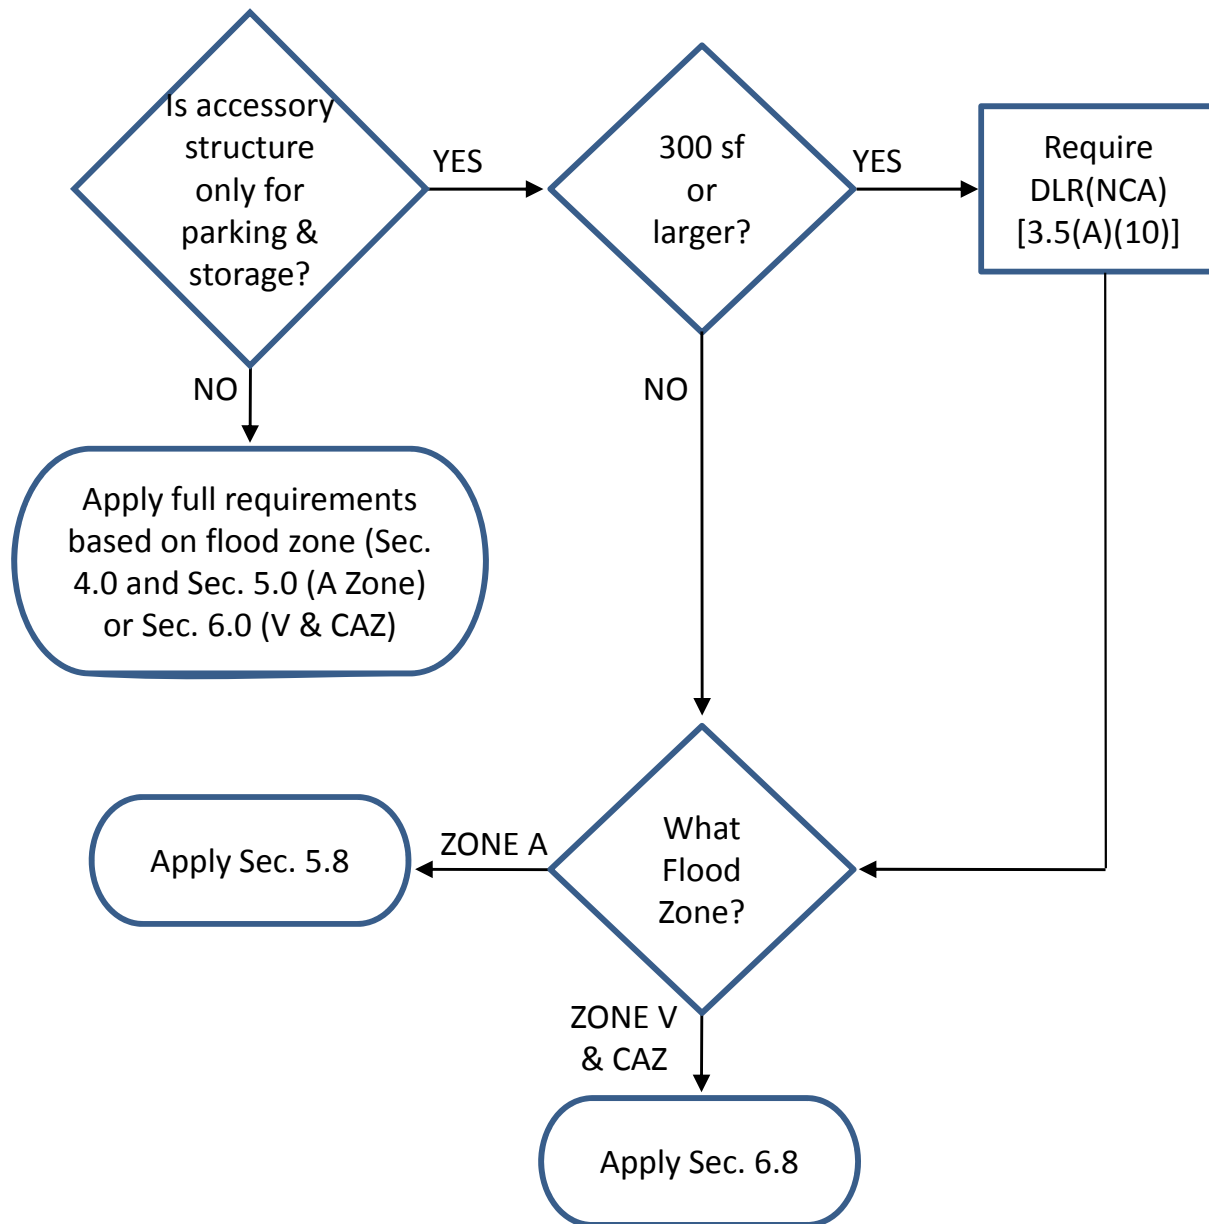

V Zone and Coastal A Zone Requirements and New Construction

Applicability Based on Flood Zone, illustrating how V Zone requirements apply to new construction and new manufactured home installations in the Coastal A Zone, while substantial improvements and replacement manufactured homes in the Coastal A Zone are subject to A Zone requirements.

Accessory Structures – Parking and Storage

Applicability to Accessory Structures, illustrating that only structures used for parking of vehicles and storage are considered accessory structures (also see definition), and illustrating when the *Declaration of Land Restriction (Nonconversion Agreement)* is required and which sections contain the applicable provisions.

Manufactured Homes

Applicability to Manufactured Homes based on whether the proposed work is a new installation, replacement, or repair/improvement of an existing manufactured home.
